Los Angeles, CA

## Profile

Coming from a career in project management, I have a strong penchant for bringing organization to any team I work for. I'm a highly motivated self-starter who has discovered a love for site reliability and all things continuous and automated. I have a strong desire to work for a company that puts their users' best interests over making a profit.

## Experience

### Software Engineer StackCommerce

Jun 2018 - Present Venice, CA

- Worked as a core full-stack developer on the e-commerce application as well as internal applications written in **Ruby on Rails, MySQL, JavaScript, React.js, and GraphQL**
- **Improved engineering documentation by 45%** by updating out-dated topics and added new docs where none existed yet
- **Eliminated 90% of the known flaky tests** within my 1st month on the job
- Participated in on-call rotation between 4 developers starting 1 month after joining the team as a junior
- Introduced biweekly "brown bags" for knowledge sharing within the product/engineering team

### Software Developer FIVE x 5 Solutions

Apr 2017 - Jun 2018 Denver, CO

- Core team developer for the brewery-focused product and worked in **PHP7, React.js, MariaDB/MySQL, and SemanticUI**
- Achieved a **30% decrease** in development time by introducing end-to-end testing with [Cypress] (<http://cypress.io>)
- Expanded the internal product & engineering wiki that **decreased candidate on-boarding time by 40%**

### Student Support Fellow (Mentor)

#### Turing School of Software & Design

Jan 2017 - Mar 2017 Denver, CO

- Provided tutoring and support to current Turing students
- Primarily focused on helping newer students go over and review Ruby syntax, Ruby on Rails fundamentals and best TDD practices

### Student Turing School of Software & Design

Jun 2016 - Jan 2017 Denver, CO

- Graduated from the 7-month backend curriculum
- Learned Ruby, Web Application development fundamentals, JavaScript and how to work well with other developers on a team

## Skills

Testing/TDD

Ruby/Rails

MySQL/PostgreSQL

JavaScript

React.js

GraphQL

Docker

Golang

Linux

## Education

### Certificate Web Application Development

Turing School of Software & Design Jun 2016 - Jan 2017  
Completed the Ruby/Rails/JS backend program

### Bachelor's of Arts Journalism

Metropolitan State University of Denver 2011 - 2014

## Projects

### LA Devs Community Slack Co-founder

Feb 2019 - Present ladevs.org

Created this group to facilitate a polyglot and diverse network of local Los Angeles-based developers and designers to promote knowledge sharing, self advocacy and community building

## Volunteering

### Instructor Aurora History Museum

Feb 2017

Taught two free classes for women ages 13-50 on HTML/CSS and Ruby basics during Women in STEM months at the Aurora History Museum.

### Project Manager

#### Flock: Accelerating Women in Tech

Mar 2017

Helped organize an International Women's Day Hack Night with Flock and Galvanize Boulder. This hack night focused on building tools for refugee women and developers were broken up into groups by level of skill.
